PROFESSIONAL SUMMARY

Entry-Level MERN Stack Developer skilled in JavaScript, React.js, Node.js, Express.js, and MongoDB. Adept at building REST APIs, executing CRUD operations, and developing responsive web applications using reusable components. Passionate about translating complex requirements into functional, user-friendly software solutions.

TECHNICAL SKILLS

Frontend:	HTML5, CSS3, JavaScript (ES6+), React.js, React Router, Responsive Web Design, DOM Manipulation, Intersection Observer API, Lucide React
Backend:	Node.js, Express.js, RESTful APIs, CRUD Operations, Axios
Database:	MongoDB
Tools:	Git, GitHub, Visual Studio Code, JSON Server

PROJECTS

School Management Information System (MIS)

React.js, Node.js, Express.js, MongoDB, REST API

- Developed a comprehensive School Management Information System to manage academic and administrative operations.
- Implemented student enrollment and approval functionality, along with detailed student and course management features.
- Engineered CRUD operations for managing fee records and issuing certificates.
- Integrated REST APIs and built reusable React components to ensure a clean, scalable codebase.
- Designed a responsive UI with role-based functionality tailored for different school users, using Git and GitHub for source control.

Personal Developer Portfolio

React.js, JavaScript, CSS, Responsive Design

- Built a highly responsive developer portfolio optimized for desktop, tablet, and mobile devices.
- Constructed reusable React components and implemented a sticky navigation bar with a mobile hamburger menu.
- Implemented active section detection while scrolling and smooth scroll reveal animations using the Intersection Observer API.
- Integrated direct links to GitHub, LinkedIn, and email for easy user engagement.
